### 2.31 (c)

#### INSTITUTIONAL ANIMAL CARE AND USE COMMITTEE (IACUC).

IACUC Functions. With respect to activities involving animals, the IACUC, as an agent of the research facility, shall:

- (1) Review, at least once every six months, the research facility's program for humane care and use of animals, using title 9, chapter I, subchapter A--Animal Welfare, as a basis for evaluation;
- (2) Inspect, at least once every six months, all of the research facility's animal facilities, including animal study areas, using title 9, chapter I, subchapter A-Animal Welfare, as a basis for evaluation; Provided, however, That animal areas containing free-living wild animals in their natural habitat need not be included in such inspection;
- (3) Prepare reports of its evaluations conducted as required by paragraphs (c)(1) and (2) of this section, and submit the reports to the Institutional Official of the research facility; ..... The reports shall be reviewed and signed by a majority of the IACUC members and must include any minority views. The reports shall be updated at least once every six months upon completion of the required semiannual evaluations and shall be maintained by the research facility and made available to APHIS and to officials of funding Federal agencies for inspection and copying upon request.

The facility has not conducted the review of its humane care and use program or facilities and submitted reports to the Institutional Official as required by the AWA.

The facility needs to review the humane care and use program and facilities as required to ensure that all animals are used appropriately and have appropriate conditions to ensure their health and wellbeing.

Conduct the reviews of the humane care and use program and facilities once every six months and submit reports to the Institutional Official once every six months.

Correct from this time forward.

Inspection and exit interview conducted with (b)(6), (b)(7)c

End of report.

IOWA CITY, IA 52242

2.31 (d) (1) (ii)

### INSTITUTIONAL ANIMAL CARE AND USE COMMITTEE (IACUC).

The principal investigator has considered alternatives to procedures that may cause more than momentary or slight pain or distress to the animals, and has provided a written narrative description of the methods and sources, e. g., the Animal Welfare Information Center, used to determine that alternatives were not available.

Protocol #0612253 approved by the IACUC on 2/6/2007 was reviewed during this inspection. The protocol involves painful and distressful procedures in a covered species. The principle investigator failed to provide a written narrative describing the methods and sources used to determine that alternatives were not available. The protocol answers the question of Databases searched as "N/A" and why a literature search was not performed as "We want to teach a course which is already developed and approved by American College of Surgeons (ACS)."

All protocols involving painful and distressful procedures must contain a written narrative describing the methods and sources used to determine if alternatives are available. This provides the IACUC all the information available to ensure that animals are not used inappropriately in research.

Ensure that all painful and distressful protocols contain a written narrative describing the materials and methods used to determine if alternatives are available.

Correct from this time forward.

Inspection conducted with (b)(6), (b)(7)c

Exit interview conducted with (b)(6), (b)(7)c

End of report.
